

Overview: MiniVAN reporting

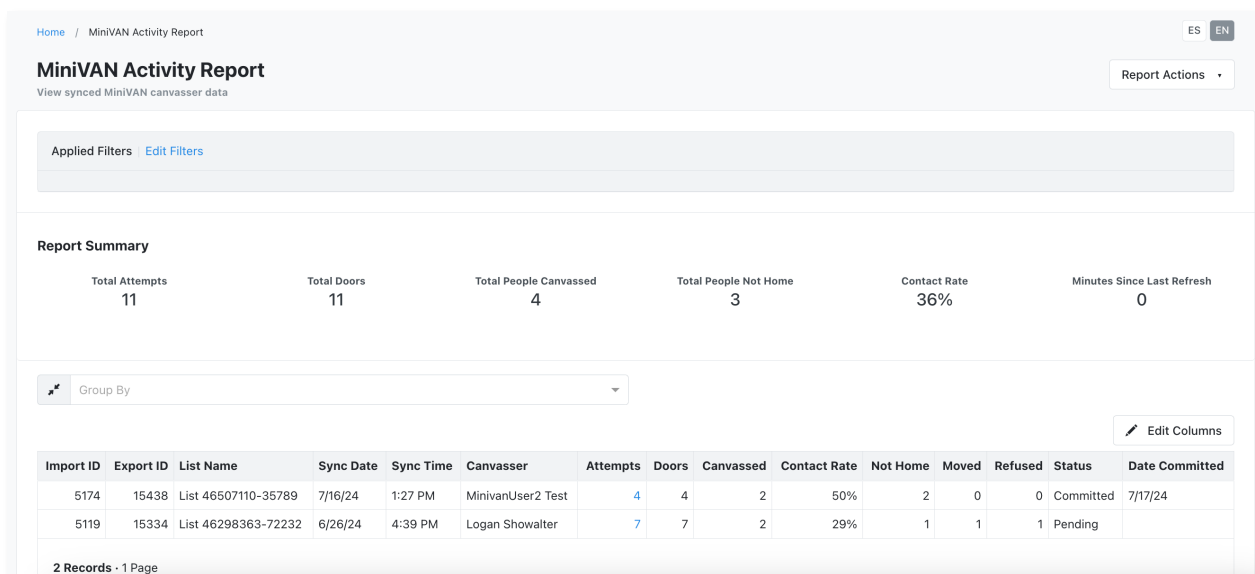

Overview

Starting September 2024, MiniVAN data will be automatically committed, meaning that you won't need to manually commit your data anymore. We've introduced this change in order to improve VoteBuilder performance during GOTV, to save organizers time, and to reduce the amount of MiniVAN data that goes uncommitted.

MiniVAN data will be auto-committed every 30 minutes — if you need to remove committed data, please consult with your administrator. We've introduced 2 new reports to give you more insight into your MiniVAN data.
